📍 Uttara Dhaka Bangladesh

### SUMMARY

I am a Full-Stack Web Developer skilled in building responsive, scalable applications using modern technologies like React, Vue, Next.js, Nuxt.js, Laravel, Node.js, Nest.js, and Fast API. I have experience delivering SaaS products, eCommerce platforms, CRM/ERP systems, payroll solutions, third-party API integrations, and full server management.

### EXPERIENCE

#### Senior Software Developer and DevOps

**revinr** 05/2024 - Present 🗂️ Uttara Sector-9, Road-3 Dhaka Bangladesh

Responsible for developing and implementing software applications

- Designed and implemented a new software application, resulting in a 20% increase in efficiency for the department.
- Led a project to integrate third-party APIs, reducing data redundancy and improving data quality.
- Collaborated with the product team to understand their requirements and tailor-made solutions that increased product functionality by 35%.
- Implemented DevOps practices including CI/CD pipelines, automated deployments, and server optimization, resulting in faster release cycles and improved system stability.
- Managed cloud infrastructure and application performance, ensuring high availability, scalability, and secure deployments.

#### Senior Software Developer

##### Soft Commerce Limited

06/2022 - 03/2024 🗂️ Banglade motor planners tower, Dhaka Bangladesh

Responsible for developing and implementing software applications

- Designed and developed high-performance software applications, increasing departmental efficiency by 20%.
- Built and launched new product features that boosted customer engagement by 15% and improved overall user experience.
- Integrated Google services (authentication, maps, analytics, or relevant Google APIs), improving platform reliability and enhancing user functionality.
- Led large-scale third-party API integrations, reducing data redundancy by 40% and increasing data accuracy and synchronization across multiple systems.
- Collaborated with the product team to understand their requirements and tailor-made solutions that increased product functionality by 35%.
- Optimized existing codebase, resulting in a 10% reduction in processing time.
- Consistently met project deadlines and received a commendation for dedication and focus.

### STRENGTHS

#### Problem-Solving

Resolved complex software issues in previous role delivering a 40% reduction in long-standing unresolved problems.

#### Collaboration

Led a cross-functional team of four developers in the successful execution of a critical project on time and under budget.

#### Adaptability

Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules.

### SKILLS

#### FRONTEND

React.js Next.js Vue.js Nuxt.js

JavaScript TypeScript Tailwind CSS

HTML5 CSS

#### BACKEND

Nodejs Express.js Nest.js Python

FAST API REST API PHP LARAVEL

#### DATABASES

MYSQL MONGODB POSTGRESQL

GRAPHQL

## EXPERIENCE

---

### Software Developer Mid Level

**BVon**  12/2020 - 05/2022  Uttara Sector-6, Road-3 Dhaka Bangladesh

Ecommerce Project Development and service

- Led the development of a large-scale Ecommerce platform built using Laravel, Vue.js, and MySQL, deployed on a DigitalOcean VPS with Apache2 server configuration.
- Designed a modular service-based architecture supporting 20+ service categories, including:
  - Card driving tracking
  - E-learning modules
  - Online shop services
  - Transport & logistics services
  - Medical & healthcare services
- Successfully completed and delivered 3 full service modules, ensuring end-to-end development, UI/UX implementation, backend logic, API integrations, and deployment.
- Created scalable foundations for the remaining service modules; although not completed due to project constraints, architecture and core logic were built to support future expansion.
- Collaborated with product owners to define service requirements and ensure the Ecommerce platform could support multiple business verticals under one system.
- Optimized backend and frontend performance for faster load times, improved user experience, and smooth service handling across all active modules.
- Maintained high-quality documentation, code standards, and structured workflows to ensure future teams can expand unfinished service modules with minimal effort.

## EDUCATION

---

### Bachelor's in Computer Engineering

**Gono Bishwabidyalay**

 01/2016 - 11/2020  
 Nolam, P.O. Mirzanagar via Savar Cantonment, Ashulia, Savar, Dhaka-1344.

### Higher Secondary Certificate

**Savar Model College**

 07/2012 - 06/2014  Shahibag, Savar, Dhaka, Bangladesh
